

Core classes:

Transfiguration: the art of changing the form and appearance of an object or a person.

Charms: learning charms from a textbook, with special attention to wand movements and proper pronunciation.

Potions: the foundational study of potion making.

History of Magic: historical subject matter includes Gargoyle strikes, Witch Hunts, and Giant Wars.

Defense Against the Dark Arts: learn how to defend yourself against dark creatures, curses, hexes, jinxing, and duels.

Astronomy: the naming and movements of stars, constellations, and planets.

Herbology: the study of magical and mundane plants and fungi.

Elective classes:

Arithmancy: predicting the future with numbers and numerology.

Muggle Studies: study of the history and daily lives of Muggles, and how they are able to live without magic, but instead use electricity, technology, and science.

Divination: methods of gathering insights into future events through various rituals and tools including tea leaves and crystal balls.

Ancient Runes: symbols belonging to the runic alphabet. Widely used by medieval wizards and still by the modern magical community.

Care of Magical Creatures: the study and care of a variety of magical animals and creatures.
